

## Benefits for Clinics, Spas and Health Practitioners

*Improve Clinical Outcomes  
Increase Referrals, & Increase Profits*

### **New Tools For Your Practice**

Sometimes difficult clients have jumped from clinic to clinic before they came to you. Their problems are unique and challenging. Using LifeWave products in addition to your standard protocols can make your practice the last place these clients need to go!

### **Historical Breakthrough in Stem Cell Technology**

X39 is our newest breakthrough product, which is patented and clinically proven to activate GHK-Cu Copper Peptide, which has been clinically proven to:

- Activate Stem Cells
- Accelerate Wound Healing
- Increase Anti-Oxidant Protection
- Support Anti-inflammatory Action
- Rapid Pain Relief
- Increase Collagen
- Promote Blood Vessel Growth
- Reverse Gene Expression to a Healthier State

Patients will typically experience noticeable results within 30-days... and some much faster.

### **Clinically Proven Results**

By carrying LifeWave products in your front office, your clients can benefit from clinically proven results in the areas of sleep, detoxification, organ function improvement, age reversal, regenerative medicine, pain management, cellular energy enhancement and much more. Many of these may be areas your practice has not been able to offer before now. Your clients will improve on many levels from your offerings. And you'll have no worries about side-effects or contraindications using our non-transdermal phototherapy patches. No drugs or chemicals enter the body.

### **Good For Patients... Good For Your Business**

Satisfied clients don't often refer... but excited clients always do! Clinics using and offering LifeWave patch products see their referral rates go up because of the often-stunning health results and subsequent excitement these products bring. Many see retail profits reach into the thousands shortly after introducing them and some say LifeWave products quickly out-sell their other best products.

### **If Pain or Preparation For Your Therapy Is The Problem**

In addition to the pain-relieving benefits of X39, adding LifeWave Ice Wave and Aeon patches can accelerate and enhance reductions in inflammation and associated pain levels, allowing you to get to the core problem quickly.

### **When Stress or Distress Is A Barrier To Your Protocols**

LifeWave Aeon patches are also proven to balance autonomic nervous system function within 10 minutes of application. A client who is in a calm state is much more receptive to your therapy. Aeon also reduces heart rate variability and systemic inflammation at the same fast rate. (Soon to be available in Thailand)

### **Training and Support**

Clinical training and support is available from your Independent LifeWave Representative, and over 80 clinical studies and scientific reports validating efficacy and safety of LifeWave products are readily available for your review.
